Senior UX Architect | Enterprise SaaS | Design Systems | Agentic AI

PROFESSIONAL SUMMARY

Senior UX Architect with 11 years of experience designing enterprise SaaS platforms, government civic systems, and consumer products. Founding designer of Javelina, a configuration-driven multi-tenant health insurance platform serving Fortune 500 clients including Cigna, running a three-tier hierarchical theming engine that deploys new client brands in under 24 hours. Deep expertise in design systems, information architecture, and bilingual (RTL) design. Since 2025, independently shipping AI-powered products built on agentic architectures using LangChain and LangGraph. Works at the intersection of design architecture, product thinking, and engineering.

EXPERIENCE

Senior UX Architect (UX/UI Designer, Delivery Project Lead) | Mphasis

May 2015–Present | Pune, India

Javelina: Enterprise Health Insurance SaaS Platform (2021–Present)

- Architected and led UX for Javelina, a configuration-driven multi-tenant SaaS platform for the US enterprise health insurance market; built and led a team of four designers
- Designed a three-tier hierarchical theming system (Insurer, Employer, Member) enabling full white-label brand customization without code changes; clients include Cigna, Keenan, and other Fortune 500 insurers
- Built a 120+ component design system powering web and mobile experiences across multiple enterprise tenants
- Redesigned the Open Enrollment flow from 9 steps to 5 through decision-flow restructuring, significantly reducing user drop-off
- Achieved new client theme deployment in under 24 hours; feature velocity of 2 days design, 3 days development
- Designed white-label iOS and Android mobile apps rebrandable in 1 to 2 days per client

Dubai Municipality: Government Civic Platform (2020–2021)

- Led UX for a large-scale bilingual civic services platform serving millions of residents; worked onsite in the UAE presenting and approving deliverables with senior government stakeholders
- Delivered full English and Arabic design with RTL layout support across web and mobile surfaces
- Designed information architecture and service flows for a broad portfolio of digital government services

Jet Airways: Consumer Multi-Platform (2015–2019)

- Designed end-to-end digital experiences for one of India's largest airlines across web, iOS, Android, and Apple Watch
- Shipped iOS and Android apps and an Apple Watch companion app, all in production until airline closure in 2019
- Developed a responsive component library supporting multi-device coverage

Founder and Product Designer | Blinkwiser

2025–Present | Pune, India

- Built and shipped Carousel Builder, a LinkedIn carousel PDF generator powered by a two-agent pipeline (StrategistAgent to TemplateAgent); built on React, Vite, LangChain, and Appwrite with active users on a freemium model
- Built and shipped Video Course Builder, a seven-stage agentic pipeline with a cinematic Motion Manifest layer; built on Next.js, Groq (Llama 3.3 70b), Appwrite, and Replicate; live with free beta enrollment including teacher, student, and admin roles and a course marketplace
- Designed user experience and engineered agent orchestration logic for both products entirely solo

UX Designer | IBN Al QYM

Mar 2014–Mar 2015 | Doha, Qatar

- Designed and delivered UI for web platforms in a client-facing agency environment; presented visual designs to clients and managed approval workflows
- Converted designs to HTML; designed print and magazine layouts

UI/UX Designer | ITAD Learning

Jan 2012–Dec 2013 | Pune, India

- Designed mockups for web applications and converted layouts to HTML; created brand and marketing assets; collaborated with product and engineering teams

Web and Graphic Designer | Wahab Studio

Aug 2007–Dec 2011 | Pune, India

- Delivered web and print design across multiple client engagements; created mockups, visual designs, and magazine layouts

KEY PROJECTS AND CLIENTS

- Javelina (Cigna, Keenan, Aptia, Bywater): Founding designer on a multi-tenant enterprise health insurance SaaS platform for the US market, serving Fortune 500 clients
